The unaudited interim condensed consolidated financial statements have been prepared in accordance with International Accounting Standard 34 - Interim Financial Reporting ("IAS 34") as issued by the International Accounting Standards Board ("IASB"), and therefore, do not contain all disclosures required by International Financial Reporting Standards ("IFRS") for annual financial statements. Accordingly, certain information and note disclosures normally included in annual financial statements prepared in accordance with IFRS, have been omitted or condensed.

The preparation of unaudited interim financial statements in accordance with IAS 34 requires the use of certain critical accounting estimates which requires management to exercise judgment in applying the Company's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the unaudited interim financial statements have been set out in note 2 of the annual audited consolidated financial statements for the year ended January 31, 2015.

These unaudited interim condensed consolidated financial statements were prepared using the same accounting policies and methods as those used in the annual audited consolidated financial statements for the year ended January 31, 2015 and should be read in conjunction with them.

These unaudited interim condensed consolidated financial statements were authorized for issuance by the Audit Committee of HBC on June 9, 2015.

#### **New Accounting Standards Not Yet Implemented**

#### **Financial Instruments**

In July 2014, the IASB issued IFRS 9 – Financial Instruments ("IFRS 9"), which brings together the classification and measurement, impairment and hedge accounting phases of the IASB's project to replace IAS 39 – Financial Instruments: Recognition and Measurement ("IAS 39").

#### Classification and measurement

Financial assets are classified and measured based on the business model under which they are managed and the contractual cash flow characteristics of the financial assets. Financial liabilities are classified in a similar manner as under IAS 39, except that financial liabilities measured at fair value will have fair value changes resulting from changes in the entity's own credit risk recognized in other comprehensive loss instead of net (loss) earnings.

#### *Impairment*

The measurement of impairment of financial assets is based on an expected credit loss model. It is no longer necessary for a triggering event to have occurred before credit losses are recognized. IFRS 9 also includes new disclosure requirements about expected credit losses and credit risk.

#### Hedge accounting

The new general hedge accounting model more closely aligns hedge accounting with risk management activities undertaken by entities when hedging their financial and non-financial risk exposures. The new model will provide more opportunities to apply hedge accounting to reflect actual risk management activities.

IFRS 9 will be applied retrospectively for annual periods beginning on or after January 1, 2018. Early adoption is permitted. The Company is assessing the potential impact of this standard.

#### Revenue

In May 2014, the IASB issued IFRS 15 – Revenue from Contracts with Customers ("IFRS 15"), which provides a comprehensive framework for recognition, measurement and disclosure of revenue from contracts with customers, excluding contracts within the scope of the standards on leases, insurance contracts and financial instruments. In April 2015, the IASB tentatively decided to defer the effective date of IFRS 15 to annual periods beginning on or after January 1, 2018, and to require retrospective application. Early adoption is permitted. The tentative decisions will be exposed in an upcoming exposure draft with a comment period of no less than 30 days. The Company is assessing the potential impact of IFRS 15.

#### **Joint Arrangements**

In May 2014, the IASB amended IFRS 11 – Joint Arrangements ("IFRS 11") to require that a joint operator accounting for the acquisition of an interest in a joint operation, in which the activity of the joint operation constitutes a business must apply the relevant IFRS 3 – Business Combinations principles for business combinations accounting. The amendments also clarify that a previously held interest in a joint operation is not remeasured on the acquisition of an additional interest in the same joint operation while joint control is retained. In addition, a scope exclusion has been added to IFRS 11 to specify that the amendments do not apply when the parties sharing joint control, including the reporting entity, are under common control of the same ultimate controlling party.

The amendments apply to both the acquisition of the initial interest in a joint operation and the acquisition of any additional interests in the same joint operation. IFRS 11 is effective for annual periods beginning on or after January 1, 2016, and must be applied prospectively. Early adoption is permitted. The Company is assessing the potential impact of IFRS 11.

#### NOTE 3. SEASONALITY

The Company's operations are seasonal in nature. Accordingly, retail sales will vary by quarter based on consumer spending behaviour. Historically, the Company's revenues and earnings are highest in the fourth quarter due to the holiday season. The Company is able to adjust certain variable costs in response to seasonal revenue patterns; however, costs such as occupancy are fixed, causing the Company to report a disproportionate level of earnings in the fourth quarter. This business seasonality results in quarterly performance that is not necessarily indicative of annual performance.

#### NOTE 4. ACQUISITION OF SAKS

During fiscal 2014, the Company identified measurement period adjustments based on new information relating primarily to inventories. The impacts of the adjustments to previously reported amounts are as follows:

#### **Condensed Consolidated Balance Sheet**

#### NOTE 8. INCOME TAXES

Income tax benefit for the thirteen weeks ended May 2, 2015 was \$27 million (2014: expense of \$10 million). The effective income tax rate of 33.3% (2014: 5.4%) for the first quarter of 2015 increased compared to the first quarter of 2014 primarily due to the effect of a change in state tax law in the current year and the favourable tax treatment related to the sale and leaseback transaction (note 19) in the prior year.

#### NOTE 9. INVENTORIES

Inventories on hand at May 2, 2015, May 3, 2014 and January 31, 2015 were available for sale. The cost of merchandise inventories recognized as expense for the thirteen weeks ended May 2, 2015 were \$1,226 million (2014: \$1,139 million).

The write-down of merchandise inventories below cost to net realizable value as at May 2, 2015 was \$36 million (May 3, 2014: \$34 million; January 31, 2015: \$48 million). There was no reversal of write-downs previously taken on merchandise inventories that are no longer estimated to sell below cost. Inventory has been pledged as security for certain borrowing agreements.

#### NOTE 18. FINANCIAL INSTRUMENTS

The fair value of the HBC Revolving Credit Facility, U.S. Revolving Credit Facility, Senior Term Loan B, Yorkdale Mortgage, Lord & Taylor Mortgage and Saks Mortgage are valued using a discounted cash flow model, taking into consideration the fixed interest rate spread included in the related debt compared to fixed interest rate spreads on similar debt available in the market at the balance sheet dates. These instruments are classified within Level 2 of the fair value hierarchy.

As at May 2, 2015, May 3, 2014 and January 31, 2015, the carrying value and fair value of these debt instruments were:

(millions of Canadian dollars)	May 2, 2015	May 3, 2014	Jan 31, 2015
Carrying value	3,074	2,787	3,058
Fair value	3.078	2,812	3,062

Cash, restricted cash, trade and other receivables, trade payables and other payables and accrued liabilities are financial assets or liabilities that are carried at other than fair value in the unaudited interim condensed consolidated balance sheets. The fair value of these financial assets and liabilities approximate their carrying values at the balance sheet dates due to their short-term nature.

The fair values of foreign currency options, interest rate swaps, forward foreign currency contracts and warrants reflect the estimated amounts that the Company would receive or pay if it were to settle the contracts at the reporting date, and are determined using valuation techniques based on observable market input data. The fair values of embedded foreign currency derivatives reflect the estimated amounts the Company would receive or pay to settle forward foreign exchange contracts with similar terms using valuation techniques which utilize observable market input data. These instruments are classified within Level 2 of the fair value hierarchy.

As at May 2, 2015, May 3, 2014 and January 31, 2015, the fair value and carrying value of derivative financial assets and financial liabilities were:

(millions of Canadian dollars)	May 2, 2015	May 3, 2014	Jan 31, 2015
Financial assets	9	6	24
Financial liabilities	82	28	70

Certain features of the warrants issued in connection with the acquisition of Saks result in the warrants being presented as derivative financial liabilities recorded at fair value in the unaudited interim condensed consolidated balance sheets.

During the thirteen weeks ended May 2, 2015, in relation to the 1.5 million warrants issued to HSILP concurrently with the definitive merger agreement with Saks ("Merger Agreement Warrants"), the Company recognized acquisition related finance costs of \$2 million (2014: \$1 million) representing mark to market adjustments to the fair value as at May 2, 2015. As at May 2, 2015, the fair value of the Merger Agreement Warrants was \$17 million (May 3, 2014: \$6 million, January 31, 2015: \$15 million).

In relation to the 5.25 million warrants issued to HSILP and West Face Long Term Opportunities Global Master L.P. on November 4, 2013 upon closing of the transaction ("Acquisition Warrants"), the Company recognized acquisition related finance costs during the thirteen weeks ended May 2, 2015 of \$6 million (2014: \$3 million) representing the mark to market adjustments to the fair value as at May 2, 2015. As at May 2, 2015, the fair value of the Acquisition Warrants was \$59 million (May 3, 2014: \$22 million; January 31, 2015: \$53 million).

The Company will continue to record mark to market gains and losses on the warrants until the earlier of the date of exercise or expiry.

The fair values of the warrants were determined using the Black-Scholes option pricing model using the following assumptions:

	May 2, 2015	May 3, 2014	Jan 31, 2015
Share price	\$26.91	\$17.61	\$23.42
Expected volatility	32%	27%	45%

#### NOTE 19. SALE AND LEASEBACK TRANSACTION

On February 25, 2014, the Company sold its downtown Toronto flagship retail complex and the Simpson's Tower located at 401 Bay Street to an affiliate of The Cadillac Fairview Corporation Limited for a purchase price of \$650 million. The Company has leased the entire retail and office complex back for a base term of twenty-five years with renewal options of up to approximately twenty-five years. Proceeds of the transaction were used to retire in entirety the junior secured term facility, which bore interest at a rate of 8.25%, permanently pay down U.S.\$150 million of Senior Term Loan B, currently bearing interest at a rate of 4.75% and reduce the outstanding balance of the HBC Revolving Credit Facility.

The total gain on the sale and leaseback transaction was \$560 million, \$308 million of which was recognized immediately in the unaudited interim condensed consolidated statements of (loss) earnings. The remaining \$252 million of the gain was deferred and is being amortized over the term of the lease as a reduction in rent expense. The deferred gain is included in non-current other liabilities (note 11) in the unaudited interim condensed consolidated balance sheets.
